Not only will this make possible the maintenance of higher standards, but it is the wedge for the Central School idea. All the hospitals will benefit by it, as it will make for a uniform standard of efficient effort, and will tend to a better and more forceful organization.

MILITARY MORALS

One of the uses of the proceeds of the Liberty Loan that will appeal strongly to the great mass of American people is the care and attention given to the moral welfare and protection of the American soldiers.

Heretofore with the American Army and even now with some of the armies of our allies the moral welfare of the soldier was and is a matter largely ignored. In the German armies provision is even made for immorality.

It is to the glory of American arms and American national character that of the men who wear the United States uniform a high standard of conduct is expected and demanded, and provided for. Kipling's "Single men in barracks" are not to find their prototypes in the American Army.

General Pershing says there is no cleaner living body of men in the world than the American Army in France.
